## **REASONS FOR ALLOWANCE**

**The following is an examiner's statement of reasons for allowance.**

Claims 1-11 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in forming a through hole which is communicated with the opening portion of the bump metal film and passes through to a back surface of the semiconductor substrate by etching sequentially the seed metal film, the connecting pad and the semiconductor substrate located under the opening portion of the bump metal film, while using the bump metal film as a mask and grinding the back surface of the substrate, selectively forming an insulating film to cover the semiconductor substrate on a side surface of the through hole before or after the grinding step, forming a conductive film in the opening, forming a metal bump by etching the seed metal film while using the bump metal film as a mask.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
